ELSEVIER

Contents of Volume 33

Number 1

1 Lactic acid fermentation of scampi waste in a rotating horizontal bioreactor for chitin recovery
Z. ZAKARIA, G. M. HALL and G. SHARMA

7 Determination of kinetic parameters in the biosorption of copper(II) on cladophora sp., in a packed bed column reactor
Z. AKSU and T. KUTSAL

15 Utilization of fuel ethanol residues in production of the biopolymer alternan
T. D. LEATHERS

21 Industrial applications of pectic enzymes: A review
I. ALKORTA, C. GARBISU, M. J. LLAMA and J. L. SERRA

29 Bioconversion of (R)-(+)-limonene by *P. Digitatum* (NRRL 1202)
Q. TAN, D. F. DAY and K. R. CADWALLADER

39 Evaluation of cross-flow microfiltration membranes using a rotary disc-filter
A. PESSOA Jr and M. VITOLO

47 The influence of the degree of cross-linking. Type of ligand and support on the chemical stability of chromatography media intended for protein purification
M. ANDERSON, B. L. JOHANNSON and M. RAMBERG

57 Immobilization of α-L-arabinofuranosidase on Chitin and Chitosan
G. SPAGNA

63 Acid hydrolysis of *Eucalyptus grandis* chips for microbial production of xylitol
S. S. SILVA, M. G. A. FELIPE, J. B. A. SILVA and A. M. R. PRATA

69 Phosphate effect on production of ginseng saponin and polysaccharide by cell suspension cultures on *Panax ginseng* and *Panax quinquefolium*
J. J. ZHONG, J. J. ZHONG and S. LIU

75 Physicochemical and biological performance of expanded granular sludge bed reactors treating long-chain fatty acids
C. S. HWU, J. B. VAN LIER and G. LETTINGA

83 Decolorization and biodegradation of anaerobically digested sugarcane molasses spent wash effluent from biomethanation plants
V. KUMAR, L. WATI, P. NIGAM, I. M. BANAT, D. SINGH and R. MARCHANT

89 *Patent Survey*

93 *Bibliography of Process Biochemistry*

Number 2

103 Kinetics of growth of *Aspergillus niger* during submerged, agar surface and solid state fermentations
E. FAVELA-TORRES, J. CORDOVA-LOPEZ, M. GARCIA-RIVERO and M. GUTIERREZ-ROJAS

109 Thermodynamic and kinetic study of stability of the native and chemically modified beta-glucosidases from *Aspergillus niger*
M. H. RASHID and K. S. SIDDIQUI

117 Application of a multi-layer packed bed reactor to citric acid production in solid-state fermentation using *Aspergillus niger*
M. Y. LU, I. S. MADDOX and J. D. BROOKS

125 Development of a continuously operated reactor for the limited hydrolysis of whey protein by trypsin
A. MARGOT, E. FLASCHEL and A. RENEKEN

133 Prediction of xanthan fermentation development by a model linking kinetics, power drawn and mixing
L. SERRANO-CARREON, R. M. CORONA, A. SANCHEZ and E. GALINDO

147 Genetic tuning of coryneform bacteria for the overproduction of amino acids: A review
K. M. NAMPOOTHIRI and A. PANDEY

163 On the use of chitosan immobilized β-glucosidase in wine-making: kinetics and enzyme inhibition
A. GALLIFUOCO, L. D'ERCOLE, F. ALFANI, M. CANTARELLA, G. SPAGNA and P. G. PIFFERI

169 Preparation and characterization of alkaline protease immobilized on vermiculite
M. CHELLAPANDIAN

175 Application of biosensors with an electrolyte isolator semiconductor capacitor (EIS-CAP) transducer for process monitoring
C. MENZEL, T. LERCH, K. SCHNEIDER, R. WEIDERMANN, C. TOLLNICK, G. KRETZMER, T. SCHEPER and K. SCHUGERL

181 Optimization of carotenoid production by *Phaffia rhodozyma* cells grown on xylose
J. C. PARAJO, V. SANTOS and M. VAZQUEZ

189 Biodegradation of phenols and cyanides using membranes with immobilized microorganisms
M. KOWALSKA, M. BODZEK and J. BOHDZIEWICZ

199 Surfactants in aerobic digestion of salty cheese whey using upflow fixed film reactor for improved biomethanation
P. PATEL and D. MADAMWAR

205 Removal of heavy metals from aqueous solutions by apple residues
S. H. LEE, C. H. JUNG, H. CHUNG, M. Y. LEE and J. W. YANG

213 Continuous cultivation of recombinant *Escherichia coli* JM109 in a two-stage cascade reactor and production of the fusion protein EcoRI::SPA
J. RHEE and K. SCHÜGERL

225 *Patent Survey*
229 *Bibliography of Process Biochemistry*

Number 3

239 Co-operative leaching and chemotaxis of *thiobacilli* studied with spherical sulphur/sulphide substrates
J. A. ROJAS-CHAPANA, C. C. BÄRTELS, L. POHLMANN and H. TRIBUTSCH

249 Removal and recovery of nickel from aqueous solution and electroplating rinse effluent using *azolla filiculoides*
M. ZHAO and J. R. DUNCAN

257 Enhancement, by succinate addition, of the production of cloned glucoamylase from recombinant yeast using a *SUC*2 promoter
H. J. CHA, M. H. KIM, S. H. KIM, J. S. YEO, H. J. CHAE and Y. J. YOO

263 Purification of protein A from *Staphylococcus aureus* by affinity chromatography using crosslinked macroporous glycidyl polymer
N. MUNIASAMY, S. S. AMBEDKAR and S. R. NAIK

267 Medium improvement for β-Fructofuranosidase production by *Aspergillus japonicus*
W. C. CHEN

273 A comparative study for the simultaneous biosorption of Cr(VI) and FE(III) on *C. vulgaris* and *R. arrhizus*; Application of the competitive adsorption models
Y. SAG, U. ACIKEL, Z. AKSU and T. KUTSAL

283 Optimization of solid state medium for the production of clavulanic acid by *Streptomyces clavuligerus*
A. SIRCAR, P. SRIDHAR and P. K. DAS

291 Recovery of insulinase using BDBAC reversed micelles
A. PESSOA and M. VITOLO

299 Enhanced polymethylgalacturonase production from *Aspergillus niger* 26 by calcium alginate immobilization
M. ANGELOVA, P. SHEREMETSKA and M. LEKOV

307 Effect of sucrose on actinorhodin production by *Streptomyces coelicolor* A3(2)
M. ELIBOL and F. MAVITUNA

313 Phytate as a stimulator of citric acid production by *Aspergillus niger*
W. JIANLONG

317 Nutritional improvement for Cephamycin C fermentation using a superior strain of *Streptomyces clavuligerus*
I. SARADA and P. SRIDHAR

323 Cranberry processing waste for solid state fungal inoculant production
Z. ZHENG and K. SHETTY

331 Production, partical purification and characterization of xylanase from *Trichosporon cutaneum* SL409
W. LIU, W. ZHU, Y. LU, J. KONG and G. MA

337 Production of α-galactosidase by the thermophilic fungus *humicola* sp. in solid-state fermentation and its application in soyamilk hydrolysis
S. M. KOTWAL, J. M. KHIRE, M. GOTE and M. I. KHAN

345 Bacteriocin complex *Lactobacillus acidophilus* LF221-production studies in MRS media at different pH values and effect against *Lactobacillus helveticus* ATCC 15009
B. BOGOVIC-MATIJASIC and I. ROGELJ

353 *Patent Survey*
357 *Bibliography of Process Biochemistry*

Number 4

367 Empirical models for oxygen mass transfer: a comparison between shake flask and lab-scale fermentor and application to manganiferous ore bioleaching
F. VEGLIO, F. BEOLCHINI and S. UBALDINI

377 Production and purification of soluble human CD2 secreted from recombinant *Pichia pastoris*
N. SHIOMI, K. TOMIOKA and S. KATOH

385 Influence of medium components on astaxanthin content and production of *Haematococcus pluvialis*
X. GONG and F. CHEN

393 A comparative study of copper(II) biosorption on Ca-alginate, agarose and immobilized *C. vulgaris* in a packed-bed column
Z. AKSU, G. EĞRETLI and T. KUTSAL

401 Organosolv pulping of wheat straw by use of acetone-water mixtures
L. JIMENEZ, M. J. DE LA TORRE, J. L. BONILLA and J. L. FERRER

409 Immobilisation of trypsin on acrylic copolymers
J. BRYJAK and B. N. KOLARZ

419 New solid-state fermentation process for repeated batch production of fibrinolytic enzyme by *Fusarium oxysporum*
S. TAO, L. BEIHUI, L. PENG, L. DEMING and L. ZUOHU

423 Characterization of fermented fish waste used in feeding trials with broilers
A. HAMMOUMI, H. A. FAID, M. EL YACHIOUI and H. AMAROUCH

429 Production of xylanase by *Aspergillus awamori* on synthetic medium in shake flask cultures
D. SIEDENBERG, S. R. GERLACH, K. SCHÜGERL, M. L. F. GIUSEPPIN and J. HUNIK

435 Production of ethanol from various pure and natural cellulosic biomass by *Clostridium thermocellum* strains SS21 and SS22
K. SUDHA RANI, M. V. SWAMY and G. SEENAYYA

441 Reduced hyperhydricity and enhanced growth of tissue culture-generated raspberry (*Rubus* sp.) clonal lines by *Pseudomonas* sp. isolated from oregano
K.-I. UENO, S. CHEPLICK and K. SHETTY

447 A convenient method for initial dry weight determination in samples from solid state cultivations
C. LARROCHE, J. MOKSIA and J.-B. GROS

453 Production of γ-decalactone from ricinoleic acid by immobilized cells of *Sporidiobolus salmonicolor*
S.-L. LEE, H.-Y. CHENG, W.-C. CHEN and C.-C. CHOU

461 Purification and characterization of a D-amino acid oxidase active against cephaloporin C from *Rhodospordium toruloides*
Y.-H. LEE and W.-S. CHU

469 *Patent Survey*
473 *Bibliography of Process Biochemistry*

Number 5

483 An optimal model to simulate growth of a micro-organism of a dissacharide
K. V. VENKATESH

491 Immobilization of linamarase on non-porous glass beads
C. O. IKEDIOBI, M. STEVENS and L. LATINWO

495 Comparative assessment of Fe^3 and Cu^2 biosorption by field and laboratory-grown *Microcystis*
S. SINGH, S. PRADHAN and L. C. RAI

505 Lipase production from *Aspergillus niger* by solid-state fermentation using gingelly oil cake
N. R. KAMINI, J. G. S. MALA and R. PUVANAKRISHNAN

513 On-line monitoring of citric acid production in solid-state culture by respirometry
J. PINTADO, B. K. LONSANE, I. GAIME-PERRAUD and S. ROUSSOS

519 Use of colloid chitin and diatomaceous earth in continuous cake-filtration fermentation to produce creatinase
S.-C. TANG, M.-C. CHANG and C.-Y. CHENG

527 Biotransformation of glucose to free gluconic acid by *Gluconobacter oxydans*: substrate and product inhibition situations
S. VELIZAROV and V. BESCHKOV

535 Immobilization of lipase in microcapsules prepared by organic and inorganic materials
M. MATSUMOTO, N. SUMI, K. OHMORI and K. KONDO

541 Immobilization of *Prototheca zopfii* in calcium-alginate beads for the degradation of hydrocarbons
T. SUZUKI, T. YAMAGUCHI and M. ISHIDA

547 The influence of environmental conditions on polysaccharide formation by *Ganoderma lucidum* in submerged cultures
F-C. YANG and C-B. LIAU

555 Effect of PH on growth kinetics and sulphide toxicity thresholds of a range of methanogenic, syntrophic and sulphate-reducing bacteria
V. O'FLAHERTY, T. MAHONY, R. O'KENNEDY and E. COLLERAN

571 The simultaneous biosorption of Cr(VI), Fe(III) and Cu(II) on *Rhizopus arrhizus*
Y. SAĞ and T. KUTSAL

581 *Patent Survey*

585 *Bibliography of Process Biochemistry*

Number 6

595 Chitosan-poly (glycidyl methacrylate) copolymer for immobilization of urease
M. CHELLAPANDIAN and M. R. V. KRISHNAN

601 Influence of reactor systems on the morphology of *Aspergillus awamori*. Application of neural network and cluster analysis for characterization of fungal morphology
S. R. GERLACH, D. SIEDENBERG, D. GERLACH, K. SCHÜGERL, M. L. F. GIUSEPPIN and J. HUNIK

617 Treatment of nitrogen oxides on a percolating biofilter after pre-concentration on activated carbon
E. CHAGNOT, S. TAHA, G. MARTIN and J. F. VICARD

625 Production and characterization of a Ca-alginate biocatalyst for removal of phenol and chlorophenols from wastewaters
L. G. TORRES, A. SÁNCHEZ-DE-LA-VEGA, N. A. BELTRÁN and B. E. JIMÉNEZ

635 The effect of acid stress on key enzyme activities and growth kinetics in cultures of *Xanthomonas campestris*
M. EUGÉNIA ESGALHADO and J. CARLOS ROSEIRO

641 Optimization of xylanase production by a hyperxylanolytic mutant strain of *Fusarium oxysporum*
R. CHANDER KUHAD, M. MANCHANDA and A. SINGH

649 Investigation of the biosorption of phenol and monochlorinated phenols on the dried activated sludge
Z. AKSU and J. YENER

657 Demethoxylation of lignin-model compounds with enzyme extracts from *Gloeophilum trabeum*
M. LOPRETTI, D. CABELLA, J. MORAIS and A. RODRIGUES

663 An optimal model for microbial growth in a multiple substrate environment: simultaneous and sequential utilization
P. DOSHI and K. V. VENKATESH

671 Effects of nitrogen source on the production of ginseng saponin and polysaccharide by cell cultures of *Panax quinquefolium*
J.-J. ZHONG and S.-J. WANG

677 Patterns of raw starch digestion by the glucoamylase of *Cladosporium gossypiicola* ATCC 38026
T. A. QUIGLEY, C. T. KELLY, E. M. DOYLE and W. M. FOGARTY

683 Human growth hormone production by high cell density fermentation of recombinant *Escherichia coli*
X.-W. ZHANG, T. SUN, X. LIU, D.-X. GU and X.-N. HUANG

687 *Patent Survey*
691 *Bibliography of Process Biochemistry*

Number 7

701 Enhancement of taxol production by *in situ* recovery of product
I. C. KWON, Y. J. YOO, J. H. LEE and J. O. HYUN

709 Effect of additives and fed-batch culture strategies on the production of glutathione by recombinant *Escherichia coli*
YIN LI, JIAN CHEN, YING-YING MAO, SHI-YI LUN and YOON-MO KOO

715 Culture conditions for jasmonic acid and biomass production by *Botryodiplodia theobromae* in submerged fermentation
F. ENG, M. GUTIÉRREZ-ROJAS and E. FAVELA-TORRES

721 Water-soluble immunomodulator produced by *Trichosporon pullulans* yeast
V. M. VAGABOV, E. G. DEDYUKHINA, T. V. MASTERNAK, A. S. LARIN, A. S. IVANOVA, I. S. KULAEV and V. K. EROSHIN

725 Enhancement of acid proteinase production by the fungus *Humicola lutea* 120-5 immobilized in crosslinked poly(vinyl alcohol) mixed with poly(ethylene glycol)
P. ALEKSEIVA, E. PETRICHEVA and H. KONSTANTINOV

729 Production of an esterase from *Fusarium oxysporum* catalysing transesterification reactions in organic solvents
P. CHRISTAKOPOULOS, B. TZALAS, D. MAMMA, H. STAMATIS, G. N. LIADAKIS, C. TZIA, D. KEKOS, F. N. KOLISIS and B. J. MACRIS

735 Metabolism of fructose as an electron acceptor by *Leuconostoc mesenteroides*
H. ERTEN

741 *Rhizopus oligosporus* mycelial penetration and enzyme diffusion in soya bean tempe
T. VARZAKAS

749 Characteristics of lead removal by crab shell particles
MOO-YEAL LEE, SUNG-HO LEE, HYUN-JAE SHIN, TOSHIO KAJIUCHI and JI-WON YANG

755 Organic co-solvent effects on the bioconversion of (R)-(+)-limonene to (R)-(+)-α-terpineol
Q. TAN and D. F. DAY

763 Mathematical description of ethanol fermentation by immobilised *Saccharomyces cerevisiae*
G. BIROL, P. DORUKER, B. KIRDAR, Z. İLSEN ÖNSAN and K. ÜLGEN

773 *Patent Survey*
777 *Bibliography of Process Biochemistry*

Number 8

787 Continuous production of galacto-oligosaccharides from lactose by *Bullera singularis* β-galactosidase immobilized in chitosan beads
HYUN-JAE SHIN, JONG-MOON PARK and JI-WON YANG

793 Malolactic fermentation in Chardonnay wine by immobilised *Lactobacillus casei* cells
M. KOSSEVA, V. BESCHKOV, J. F. KENNEDY and L. L. LLOYD

799 The effect of phenolic acids and molasses spent wash concentration on distillery wastewater remediation by fungi
F. FITZGIBBON, D. SINGH, G. MCMULLAN and R. MARCHANT

805 Pretreatment of beet molasses to increase pullulan production
T. ROUKAS

811 Biodegradation of phenol by enzymes from *Pseudomonas* sp. immobilized onto ultrafiltration membranes
J. BOHDZIEWICZ

819 Immobilization of RNase Rs via its carbohydrate moiety to aminoethyl-Bio-Gel P-2 and its application for the hydrolysis of RNA to 2′,3′cyclic nucleotides
R. A. DESHPANDE and V. SHANKAR

825 Simultaneous saccharification and fermentation of pretreated sugar cane leaves to ethanol
S. HARI KRISHNA, K. PRASANTHI, G. V. CHOWDARY and C. AYYANNA

831 Biodegradation of phenol by *Trichosporon cutaneum* cells covalently bound to polyamide granules
T. GODJEVARGOVA, Z. ALEKSIEVA, D. IVANOVA and N. SHIVAROVA

837 *Patent Survey*
841 *Bibliography of Process Biochemistry*
